

THE NEW CITY OF THE WEST AND THE GREAT RAILWAY CENTER OF THE STATE OF OREGON

Twenty-six regular trains arrive and depart from Albany daily, not including construction trains and extra freights.

Its shipping advantages are unequalled, as it is the junction of two great transcontinental lines, the Oregon Pacific and the Southern Pacific, and it will also be the terminus of the Albany & Astoria railroad, now in course of construction.

Over one thousand men are now employed upon the extension of the Oregon Pacific railroad from Albany eastward; and, with the opening of spring, this number will be increased to over five thousand.

Albany is the furnishing point for the Santiam gold and silver mines, in which next year will be employed 1000 men.

Albany is the county seat of Linn county; acknowledged and conceded to be the best lands in Oregon for the production of grain, grass and fruits. IT HAS NEVER BEEN BOOMED, its growth and progress depending alone on merit, has been steady and enduring.

Its unexcelled water power places it in the lead of all as a manufacturing center. Albany has given more assistance to outside enterprises than all other cities in Oregon combined.

For Information Address S. E. YOUNG, President of the Board of Trade.

THE CRONIN JURY OUT.

By Either Disagree or Are Weighing the Testimony.

DESTRUCTIONS OF THE JUDGE.

Was Exceedingly Fair to the Prisoners of Circumstantial Evidence—The Laws of Conspiracy.

Dec. 13.—On account of the ill-

ness of Mrs. State's Attorney Long-

ton, he was obliged to make the closing ad-

dress to the jury in the Cronin case. He be-

gan by repelling the charge of the prosecu-

tor that the Cronin section of the Clan-

naughton had uttered a large amount of per-

sonal testimony against the accused, and

that the Cronin section of the Clan-

naughton was members of the triangle camps. He

then took up and dwelt at length upon the rea-

soning of the evidence from the trial,

and then made a strong defense of the

defendants, and the circumstances

in which it was given, by way of rea-

soning that there was a con-

spiracy to convict the defendants.

He said: "Remember that we

are not sure that the evidence was so

convincing that you as a jury, more un-

biased a reasonable doubt that all five

defendants are guilty of this crime.

THE CHARGE TO THE JURY.

Judge McConnell then delivered his charge

to the jury, and it was allowed in the

elements of the essential element of the

conspiracy, and the law re-

quired to establish that over-

reaper satisfaction beyond a reason-

able doubt as is laid in the indictment.

Execution can lawfully be had, but

not the manner or cause of death

which in the indictment may be estab-

lished by circumstantial evidence, just as

overreaper satisfaction beyond a reason-

able doubt as is laid in the indictment.

Although you may believe the contrast

between O'Sullivan and Cronin was used to

deceive the doctor to his death, you are al-

lived that the act of defendant O'Sullivan, in

marking such a contract, of itself is insufficient

to justify you in concluding he was a par-

ty to the alleged conspiracy, unless it further

appears beyond all reasonable doubt that such act of defendant Burke himself is insufficient to justify you in concluding

that he was a party to the alleged conspiracy,

unless it further appears beyond all rea-

sonable doubt that such act of defendant

Burke was deliberately and willfully in-

tended by him to assist in perpetrating the

crime of murder.

Although you may believe the contrast

between O'Sullivan and Cronin was used to

deceive the doctor to his death, you are al-

lived that the act of defendant O'Sullivan, in

Ex-President Cleveland is said to have been received "with applause, shouts and cheers" at the banquets of the Boston Merchants' Association on Wednesday evening last. This is a body of mudwumps and demagogues who want protection for themselves and free trade for others. Its greatest of Cleveland's sins is that the elephant he goes to mud with has had to begin with it. Mr. Cleveland and his administration have a kind of immorality that tells nothing short of hypocrisy. He sits upon the high-backed chair of power, and the representatives of the "reform" democracy of the city who sit behind him are as good as mud. The negroes of the South are the members from those sections found voting in a solid body, without regard to party or personal affiliations. It is a matter of history how effective this common action has been in influencing legislation for the benefit of these sections. The records of republican congresses reveal what it has done for New England, and those of democratic what it has accomplished for the South. The Northern association in the present congress merely puts this principle of joint local effort for common ends into a concrete form. It is a franker declaration of the spirit which has animated the representatives of the older sections in their attitude towards national legislation. The North means to let out for its own account, its own interests have done it. It only differs from the others in giving notice of its intentions in advance.

AN INTELLIGENT PHILANTHROPIST

Colonel Eliot F. Shepard of New York, is popularly supposed to be a crank of a type that is a cross between a religious fanatic and a wily politician. However, this may be, his wife, who is of the sturdy old Vanderbilts stock, has some sensible ideas about the bestowal, which he could not improve on, of money. In proof of this may be cited her gift of a \$200,000 home to the young working women of New York.

While denominational Christians have established in every city of the country Young Men's Christmas Associations, erected for the use of the poor, together. This utterance was, it is possible, superior, in a moral studious, to the ex-president's initial impulsive. Who was it that made a notorious ballot-box stealer of Baltimore, a prominent clerk of the United States treasury, and kept his office in face of the representations of the "reform" democracy of the city who sit behind him? Who made Senator German a notorious patron of this notorious appointment clerk, the poll "boss" of Maryland; who but Cleveland? Who suffered Aquila Jones of Indianapolis to decimate every republican in the mail service of Indiana, and put in notorious ballot-box stuffers and jail birds? Who but Cleveland? Who endorsed and urged the re-election of the corrupt District Attorney Felows of New York city, against the protest of the "civil service reform" democrat, voted by the New York Times, the New York Evening Post and Carl Schurz? Who but Cleveland? Who made Senator German a notorious patron of this notorious appointment clerk, the poll "boss" of Maryland; who but Cleveland? Who suffered Aquila Jones of Indianapolis to decimate every republican in the mail service of Indiana, and put in notorious ballot-box stuffers and jail birds? Who but Cleveland? Who endorsed and urged the re-election of the corrupt District Attorney Felows of New York city, against the protest of the "civil service reform" democrat, voted by the New York Times, the New York Evening Post and Carl Schurz? Who but Cleveland? Who made Senator German a notorious patron of this notorious appointment clerk, the poll "boss" of Maryland; who but Cleveland?

A somewhat remarkable article appears in the Tacoma News. That paper declares that the action of the Northern Pacific in giving the same rates to Seattle as to Tacoma is discrimination ag. inst Tacoma since the line to Seattle is its longer line, and to meet this alleged discrimination the Northern Pacific has directed the part of Tacoma then the Northern Pacific. We quote:

The counsel of Gibb decided wisely that no man's life can be gained for him by an application for a new trial. The verdict in his case has been generally accepted by the public as adequate punishment for an act less vicious than it was at first considered. It is fitting that it should be accepted by his friends and countrymen, who are too severe for a criminal. The following was passed:

Resolved: That we approve the abolition of child labor before the age of 34 years.

The committee on resolutions reported favorably on the following, which were adopted:

They Obey the Constitution and Laws and Protect the Right of Every Man to Pursue His Own Interests.

THE BASEBALL "LIVE TRADE".

WORKERS IN A RAPID POSE TO BOYCOTT THE LEAGUE—ALICE CONTRACT LAW NECESSARY.

BOSTON, Dec. 13.—The Federation of Labor resumed its session this morning. The following was passed:

Resolved: That we approve the abolition of child labor before the age of 34 years.

THE COUNSEL OF GIBB ADVISEDLY DENOUNCED THE BASEBALL LEAGUE.

WORK FOR CONVICTS.

FATHER'S Plan to Manufacture Jute Bags.

COLONEL FATHER OPPOSES IT

Estimates as to the Cost of a Plant
21st Walla Walla People are in Favor
of the Scheme

the cost of machinery to employ 100 men exclusive of steam power, would be \$3750, and that the weight of the necessary machinery would be 120 tons. His estimate of the cost of machinery for jute spinning and weaving with the number of workers 1 as follows:

Work	Apparatus	Amount
1 Jute softener	batching machine	\$ 250
5 Jute breaker card	100	50
1 Jute card	250	250
1 One first drawing	40	40
1 One second drawing	30	30
1 One roving frame	300	300
20 Jute spinning frames	700	700
10 One card with 20	100	100
10 One warp winder	100	100
10 One dry baling machine	40	40
10 Two jute card for 4-inch cloth	100	100
1 One damping machine	100	100
2 One calendar	50 inches wide	500
1 One jute card	20	20
1 One wood spinning lathe	100	100
1 One iron spinning lathe	100	100
10 Shuttles & forge and tools	20	20
10 Shuttles & forge and tools	20	20
10 Silver cans, belts, lustre, rope, bobbins, spinning bobbins, warp bobbins, bobbins, and bobbin carts, etc.	200	200
10 Others, bobbins, carriages, sweepers and other helpers	200	200

Total \$2000

Sack sewers and all others will take about twenty people nearly 100 people in all.

The jute softener, a large machine would do eight times the work required if fully managed we have not managed it in this case having taken half the time of the convicts, which will be only half as long.

In our opinion the cost of a plant would be \$100, the labor of convicts of this kind should not be let out by contract to any person or partnership company or corporation and the legislature should by law provide for the working of convicts for the benefit of the state.

The convicts must be given some kind of rest, and the legislature has no time to lose in providing some suitable employment, as this is a day in every other the holiday vacation will be spent.

Representative Peter came to it a rescue represented a bill to add \$25,000 to the application of \$50,000 made by the last legislature and supply the combined sum to the purchase of jute plants. If this bill passes the legislature it will be only after a hard-fight.

It will have its opponents the men of the penitentiary commission, who, in their lengthy consideration of the question the purchase of a jute plant decided that it is one of the reasons being that it should not be made a profitable concern to itself.

The next the calendar, spinning machine and spinning machine will not have half work, which tells heavily on the cost per pound.

That being so it might suit to leave out the spinning of the yarn, getting it in bundles and wait in cap or warp bobbins and get say 500 or 600 yards. These with the necessary tools and calendar, etc., would cost \$2000, and would weigh about 100 tons.

Engines power—for the spinning and weaving for thirty looms we will require 100 16 inch 36 inch stroke, running seventy revolutions per minute.

For weaving only for sixty or seventy looms indicated some power will be required.

A man to superintend the erection of the machinery and run the establishment could be got but in both cases he would require the assistance of two or more men trained in their respective departments to instruct the people how to do the work. These things are dispensed with when one of the 100 is here to take the account charge.

THE SCOTCHMAN'S ADVISES

Appended are answers to other questions put to the Scotch manufacturer.

Q—What size of building would be required and whether it should be one or more stories for the storage of jute and the other necessary expenses, which would include a good deal of labor.

He said the other appropriation to provide for the establishment they drew on their expenses fund for \$1200, for the establishment at a brickwork. They purchased a small brickhouse Martin brickworks and put the convicts to work in brickwork, and then the production of cloth will be put out.

Q—What would be the best place to buy raw material? A—If the spinning is intended get the raw from Calcutta. If the yarn is wanted from China.

Q—Is there a market for raw jute? A—£12 to £15 a ton in Dundee. Freight from Calcutta to Dundee is £10 60 per ton.

THE ADVANTAGES OF BRICK MAKING

The present commission does not charge the 21st Walla Walla penitentiary in any employment to a limited extent in the manufacture of brick. After mature deliberation, recommended a practice to continue brick making on a more extensive and permanent basis. Their reasons for doing so

is in the means at their command it will be less expensive than any other method.

Because a larger number of convicts are employed.

Q—Is there a necessity for such an industry to the state?

No industry or institution could be more injurious than this.

Q—Are convicts are employed otherwise than brick making?

They are in a shoe shop a tailor shop, a grocery shop, a blacksmith and a taylor, which have been built by the inmates.

Q—What is the cost of the plant?

It is estimated to cost \$10,000.

Q—How many men would be required to man the plant?

It is estimated to require 100 men to man the plant.

Q—What is the cost of the plant?

It is estimated to cost \$10,000.

Q—What is the cost of the plant?

It is estimated to cost \$10,000.

EAST SUBURB NEWS ITEMS.

Our air Persons Strongly Suspected of Committing the Robbery.

Massive Election-Interest Entertainment-Illustrated Services-Quarterly Meeting-Items Gathered About Albina.

Since the stealing of the coat and vest from the Fourth street store and the traps from the harness shop, the city marshals have kept an eye open for the parties who did the mischief. He thought he had traced them to Oregon City and went up there, but did not find anything. Returning, he said, "I word that there was a camp of campers south of the car stop. He went to the camp but found that the campers had departed, leaving evidence that they had gone only a short time before. The marshal thinks these campers are the ones who committed the hold robbery Wednesday night. There has been a camp south of the car stop for some time, and there has been considerable uneasiness among those living in that vicinity.

CHRISTMAS ENTERTAINMENT.

The Sabbath school board of the Centralia M. E. church have decided to give an entertainment on Christmas eve. The church is to be festively decorated, and an arch over the pulpit for the purpose of hanging presents and bags of candies and nuts for the scholars of the school. The evening's entertainment will consist of singing, dialogue, recitations and a short address by the pastor. The program for the evening is under the charge of the following committee: Mr. J. W. Bickley, Miss Kate Pruden, Miss Hill, Dr. McMurtry, Mr. B. A. Cathey and J. M. Bachelor, all of whom know how to arrange an interesting and entertaining programme for the evening's entertainment. Every body is invited.

R. A. M. MASONIC SECTION.

At the annual convention of Washington Chapter No. 16, Royal Arch Masons, held at their hall in East Portland December 12, 1889, the following officers were elected for the ensuing Masonic year:

Thomas H. Brickett, M. E. W. P. John L. Sperry, D. K. Alonso Hoy, E. B. C. Miller, captain of H. A. L. Rumsby, P. S. & N. Allord, master d. W. W. Penslee, master d. V. Philip, flood, master d. V. J. H. B. Boynton, treasurer, John R. Hansen, secretary, M. Stoker, sentinel.

Installation will take place Monday evening, December 16, 1889, at 7:30 o'clock.

QUARTERLY MEETING.

Quarterly meeting services will be held in the First Evangelical church over the coming Sunday. Rev. C. C. Poling, President, will preach this evening, and on Sunday morning and evening in the First church, while Rev. L. S. Fisher, the pastor, will continue the revival meetings in the second church, known as the chapel. The revival services have been continued with great success for the past few weeks.

A SILENT CONCERT.

Contractor J. D. Lee, who had trouble with the tramps at the lower depot last Monday night and received a severe blow above one of his eyes, is having a serious time. Evangeline has set in which is running all over his face causing him great suffering and confining him to his room on First street.

ILLUSTRATED SERMON.

On tomorrow evening Rev. D. O. Ghormley pastor of the Presbyterian church, will begin a series of illustrated sermons entitled "Scenes in the Life of St. Paul." The paintings have been prepared specially for this course of sermons, and are instructive and interesting. Strangers are invited. Services begin at 7:30.

NOTES.

The grand musical given last night under the direction of Mrs. George Carter, in the Centenary M. B. church was a success as far as the programme was concerned, but the attendance was only fair. The entertainment was unusually fine, and those who attended had a treat.

A hunter who has a plenty near St. John killed three fine ducks yesterday which he cleaned and left in his house while he went away for a short time. When he came back to his intense disgust the ducks had disappeared. He threatens to even go on the man who got those three ducks.

ALBINA NEWS NOTES.

NEW LONGS INSTRUCTED - MURKIN - HE TURNED MURKIN - IT'S.

Industrial Lodge No. 20, I. O. O. F. of Albina was instituted last Thursday evening at their new hall on Russell street.

Installing Officer Dr. O. D. Doane grand master of the grand lodge of I. O. O. F. of Oregon, assisted by A. G. Gamble grand secretary installed the following elected officers for the ensuing term: James A. Davis, N. G. G. Scott, Gen. V. C. William Sundercole, secretary; V. A. McAllister, treasurer; J. P. Hansen, R. S. N. G. A. Paulson, L. S. N. G. J. S. Ceder, R. S. V. C. J. B. Holm, L. S. V. C. John R. George, P. S. S. Robert Warwick, L. G. J. W. Richards, J. D. Ceder, A. H. McCleary.

The members will be proud of their new lodge room which has been furnished in an elegant manner, and will compare favorably with any other lodge room in Oregon. The ante-room is also appropriately furnished, and a cosy room to sit in while waiting to be initiated. No expense has been spared to make everything comfortable and complete. The paraphernalia is all that can be desired. After it is instituted, no lodge and installing the newly elected officers, an initiation was taken at 9:30 and all returned to the lower story, where a sumptuous banquet was held.

There the members were greeted by a number of their wives and daughters who lent an additional charm to the occasion by their presence. After doing ample justice to the good things on hand the lodge engaged in business and thirteen new members were initiated. This lodge has much to live up to, and many more must be added to its flying colors and too much credit cannot be given to Mr. James A. Davis for the untiring energy he has displayed in organizing this lodge in such a successful manner.

Quite a number of young brothers from Portland and East Portland were present to witness the accommodation of the visitors and the amateur Cyclones made extra trips until after 2 A. M.

This is the first Odd Fellows lodge organized in Albina and they will give a grand ball and supper next Friday evening. This will be a grand affair, judging from the number of tickets that have been sold.

RETRIVED MURKIN.

Miss M. A. Buzzell, a returned missionary from China will describe her war thence to the Baptist mission 11 o'clock Sunday morning. All will be interested in her discourse.

The many friends of Miss E. E. Barnes will regret to hear that she has diphtheria and is confined to her room. Her younger sister, also ill.

EXCAVATION WORKS.

There are several cases of diphtheria in Albina and a malignant type. There are families who have this dread disease in their homes and will not inform the public unless a leading physician demands that the patient be replied. When diphtheria is an epidemic, great precaution is taken to

THE MORNING OREGONIAN, SATURDAY, DECEMBER 4, 1889.

SUNRISE FROM THE HEIGHTS

Graphic Description of This Sight Given by Dr. S. Rocco.

Magnificent Spectacle: View of the Mountains, the City and Landscape Below and the Grass Day God

It was 5:30 A. M. when leaving the beau- tiful and hospitable home of Judge Adams which nestles like a thing of beauty in the hillsides of West Portland overlooking the great city. I took my way southward and upward to Portland Heights. For the imagination of a sun-rise seen from this spot has no equal.

The child occupying the next seat to me may not have a case of diphtheria at home.

The committee of health and police may have an opportunity to win good laurels by attending to even passing strangers.

DEATH BY DIPHTHERIA.

Bertie, the 6-year old child of Mr. and Mrs. D. C. Maroon, died last night after an attack of diphtheria at the residence of Joseph Delay. When Mr. Maroon was taken down with the disease, his two children were sent to Mrs. Delay to remain for fear of contagion, but the next day the youngest showed symptoms of diphtheria, and kept growing worse until relieved by death.

INTERESTING SUBJECT.

George W. Hill is delivering a course of sermons at the Albina mission on "The Book of the Bible" which is awakening considerable interest. The subject Sunday evening, December 15, will be "The foolish Bachelor" and of whom know how to arrange an interesting and entertaining programme for the evening's entertainment. Every body is invited.

R. A. M. MASONIC SECTION.

At the annual convention of Washington Chapter No. 16, Royal Arch Masons, held at their hall in East Portland December 12, 1889, the following officers were elected for the ensuing Masonic year:

WALLULA'S HOPES.

The Union Pacific May Build a Town to Parallel Pages.

WALLULA, Dec. 11, 1889.

It happens unfortunately for Wallula that a large portion of the land suitable for city lots is held by residents of Wallula who will not lease but do not care to sell lots at a reasonable rate. Another large portion is held by men who have paying and profitable business will not lease the land to the settlers on the market. So Wallula which can parallel all the solid claims of Pasco and add many more is hardly growing at all, while the rival city is building up a path. Some experiments with irrigated lands give some distant day a more better market for fruit and vegetables than Wallula is found in this region.

Three thousand feet in height! A thousand ages before Egyptian Cheops rose in proof of human genius and of human slavery—did that majestic mountain rear his head from out the ocean waves—henceforth to breathe ethereal breath, amid the frozen zone of upper deep. Full on my vision stood he outline now full sixty miles from the rising day and looing east while some mysterious hand brushed mists and fog aside and cleared the mountain's brow. I saw the silent sentinel of the Willamette rear his head, straight in the pathway of the sun, and muttered to my self, "Mt. Hood."
